The must-attend biennial Asia Maritime Event

INMEX
CHINA 2024

Welcome to the 12th INMEX China

After 20 years of development, INMEX China has now become one of the most important maritime exhibitions held biennially in Asia. It serves as a bridge and link for the international maritime community to seek comprehensive and multi-level exchanges and cooperation.

The 12th INMEX China Exhibition and Forum” (abbreviated as: INMEX China 2026) will be held from 16-18 December 2026, at the Guangzhou Poly World Trade Expo Centre. It is expected that more than 500 brands from more than 20 countries and regions will join the exhibition. The exhibition will consist of nine major areas, including the International Exhibition Area, Shipbuilding Enterprise Exhibition Area, Marine Equipment and Advanced Materials Exhibition Area, Ship Navigation Exhibition Area, Cruise Industry Exhibition Area, Marine Equipment Exhibition Area, Marine Ranching Exhibition Area, Offshore Wind Power Exhibition Area, and Intelligent Ships and Digital Transformation Exhibition Area. It will comprehensively showcase innovative products, technologies, and services across the entire maritime industry chain.

In the new era, China’s shipbuilding industry has entered a critical phase of high-quality development. Technological innovation

is key to accelerating the high-quality development of the shipbuilding industry. Green shipping, smart ships, digitalisation, and luxury cruise ships represent the main directions of the current maritime industry. INMEX China will conscientiously implement the deployment of the new development pattern proposed by the central government, which aims to promote a new development model characterised by a domestic cycle as the mainstay and mutual promotion of domestic and international cycles. This will create new opportunities and actively build a platform for exchange and cooperation to assist in promoting the high-quality development of the shipping and shipbuilding industries. It will also help China’s shipbuilding industry exert greater influence in the global maritime sector.

By participating in INMEX China 2026, you will engage in business negotiations and establish cooperation opportunities with decision-makers from various fields such as shipowners, shipbuilding and repair, marine oil, marine engineering, ports and marine equipment, maritime police, port affairs, waterways, salvage, rescue, marine scientific research, marine fisheries, and water passenger transport from China and around the world including Southeast Asia, Europe, the Middle East, and South America.

Featured Forums:

- ▶ 2026 the 6th Transformation and Upgrade to the High-Quality Development of the Chinese Shipbuilding Industry Forum
- ▶ 8th China Green Shipping Technology Summit
- ▶ 7th Marine Science and Technology Development Forum
- ▶ The 3rd Guangdong Maritime Shipping Technology Forum
- ▶ Green Ship Repair Forum
- ▶ The 2nd China Electric Ship Industrial Development Forum
- ▶ 2026 Intelligent Ship Technology Development Forum
- ▶ 2026 Modern Marine Ranching Industrial Development Summit Forum
- ▶ 2026 International Offshore Wind Power Development Summit Forum

Special Exhibitions:

- ▶ Digital & Intelligent Ship Technology Exhibition
- ▶ Future New Energy for Ships Exhibition
- ▶ Offshore New Energy Development & Application Expo
- ▶ Modern Marine Fisheries Equipment & Technology Expo

Featured Events:

- ▶ Hosting a Business-to-business (B2B) matchmaking event, offering "one-on-one" business negotiation opportunities for suppliers and buyers from around the world.
- ▶ Arranging visits to local shipyards, shipowners, and marine engineering equipment bases.

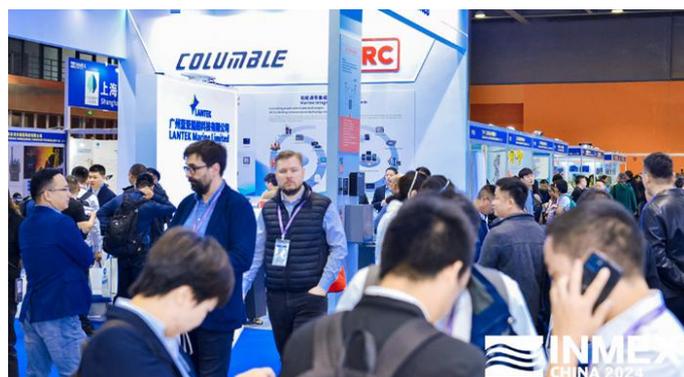

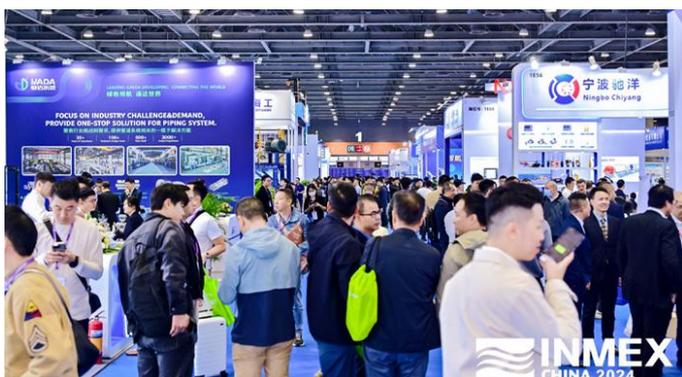

Introducing an exclusive and innovative "one-on-one" VIP exhibitor service:

By consolidating the extensive resources of INMEX China's database, including buyers, media outlets, dealers, agent channels, government organisations, associations, and other entities, exhibitors are provided with a comprehensive suite of customised services. These services include video promotion, Douyin (TikTok), WeChat, Weibo, product and corporate soft articles promotion, interviews with industry leaders, exhibit preview manual, one-on-one buyer matchmaking, on-site advertising, journal promotion, gift collection, and more. The ultimate objective is to assist exhibitors in achieving optimal publicity and promotion results.

Product Categories (Exhibitor)

Are you in search of a specific solution? Browse through our list of product categories below to explore new vendors and connect with our exhibitors on the show floor.

- Ship Design and Construction
- Shipyards and Ship Repair Facilities
- Ship Operation and Management
- Ship Registration and Inspection
- Ship Repair Machinery and Equipment
- Dredging Equipment
- Navigation and Communication Systems
- Marine Engineering and Marine Equipment
- Propulsion Systems/Pumps and Valves
- Offshore Engineering
- Computer Systems, Networks, and Software
- Environmental Protection Equipment and Facilities
- Lifting and Hoisting Equipment
- Maritime Freight and Logistics
- Paints and Coatings
- Refrigeration and Refrigeration Systems
- Port and Terminal Equipment and Services
- Port Authorities and Terminal Operators
- Safety, Rescue, and Protection Equipment
- Maritime Publications
- Marine Environment and Safety
- Classification Societies
- Marine Fuels and Lubricants
- Ports, Terminals, and Port Facilities
- Ship Financing, Insurance, and Brokerage Companies
- Shipping Supplies and Ship Materials
- Trade Associations and Consulting Services
- Offshore Wind Turbines
- Engineering, Construction, and Installation Services for Offshore Wind Projects
- Supporting Equipment and Components for Offshore Wind Turbines
- Wind Energy Equipment
- Marine (Freshwater) Ranching
- Artificial Reef Construction
- Equipment Technology for Marine Ranching
- Aquaculture Technology and Equipment
- Ecological Restoration Technology and Equipment
- Leisure Fishing and Equipment
- Yachts and Water Leisure Products

Product categories (Visitor):

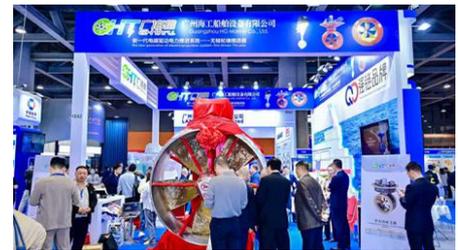

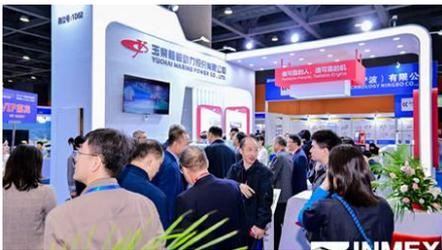

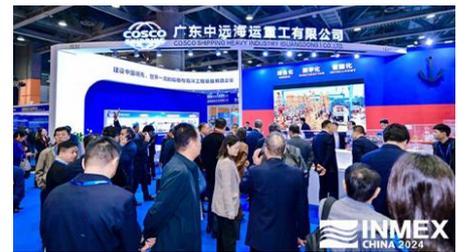

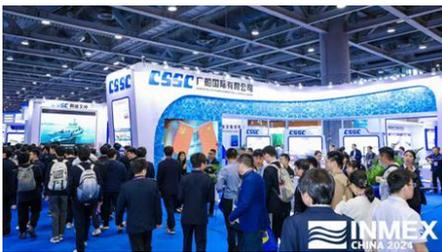

- International shipping / Inland waterway transportation / Passenger vessels
- Ship trading / Brokering / Management
- Naval / Water police / Border defense
- Port management / Port operations / Dredging
- Coast guard / Fisheries administration / Marine scientific research / Deep-sea fishing
- Offshore oil exploration / Drilling contracting and engineering services / Marine engineering equipment
- Shipbuilding / Ship repair / Ship design
- Ship registration / Inspection
- Equipment distribution / Agency / Import and export trade
- Associations / Government / Research institutions / Media
- Finance / Legal services / Insurance
- Freight forwarding / Ship agency

The remarkable moments and accomplishments of the 10th INMEX china in 2024

As one of the premier international maritime events in the Asia-Pacific region, the 11th edition comprehensively showcased product technologies, and services in areas such as shipbuilding, marine engineering, ports, marine fisheries, waterborne passenger transportation-vachts, cruise ships, deep-sea aquaculture, deep-sea fisheries, offshore wind power, and shipping. The total exhibition area reached 11,000 sqm, making it the largest industry gathering in the maritime sector of the Greater Bay Area in 2024. The exhibition included various zones such as the China shipbuilding Corporation zone, Ship Equipment Zone, Marine Engineering Equipment Zone, Intelligent Manufacturing Zone, ship Navigation Zone, Guangzhou Ship Export Base Zone, Nantong Zone, Zhuhai Yacht Tourism Association zone and more. These zones covered the entire maritime industry chain, playing an active role in facilitating exchanges and cooperation in maritime technology, trade discussions, ship financing, regulations, environmental protection, and other relevant fields at both domestic and international levels.

The event attracted 11,536 visitors from both domestic and international regions. Alongside the active participation of shipbuilding companies from South China and various parts of the country, it also witnessed the presence of professional buyers representing sectors such as shipping, offshore oil, marine engineering, shipbuilding, ship repair, ports, marine fisheries, deep-sea development, offshore wind power, luxury cruise, and passenger ships. Additionally, government departments including the navy, maritime police, maritime affairs, ports, navigation, fishery administration, border defense, salvage, rescue, and marine scientific research were also well represented. Industry associations from provinces and cities such as Anhui Province, Weihai city, and Zhuhai City organised groups to visit the exhibition. Overall, the event served as an exceptional platform for domestic and international maritime and shipbuilding enterprises to foster communication and cooperation.

60+ local and international media conducted comprehensive coverage

Lloyds List, Baird Maritime, Work Boat World, Global shipping, in-depth Maritime, Indonesia Logistics, Indonesia Salings, industry Getworker Kenya Details, Korship, Laguk-Media-Lux, MARPRO Maritime, MARPRO Search & Selection, Oxford Business Group, Schiff & Hafen-SHIP & Offshore, ship2shore, ship Management, Big Red Guide, Worldoils, China Ocean shipping, China ship inspection, shipbuilding Engineering, Mechanical and Electrical Equipment, shipboard Product Purchasing Guide, China Ship and Marine Engineering Purchasing Network, shipbuilding Technology, China Marine Platform, ship supplies and Market, Marine Development and Management, ship and Marine Engineering Magazine, China ship and Marine Engineering Website, international ship Website, Maritime service Website, Hio and Marine Equipment Website, Maritime Workers, China seafarer Home Website, China Port and Ship service Website, Port Equipment Website, Overview ship Talent Website, Xinde Maritime Website, Point ship Website, shipping World, shipping Online, China Offshore Wind Power Website, Guangdong Shipbuilding and southern Television, Guangdong Broadcasting Television, Guangdong Satellite TV Guangzhou TV, information Times, southern Daily, Guangzhou Daily, Ta Kung Pao, New Express, Yangcheng Evening News, Da Yue Web China information Network, Today's Headlines, sina, NetEase, Phoenix, sohu, Xinhua Interview Network, China Trade and Economy, Yidian Information, Qianlong Network, China.com, southern Network, Guangzhou Online, Guangdong finance and Economics Website, and 60+ other media provided comprehensive coverage of the exhibition.

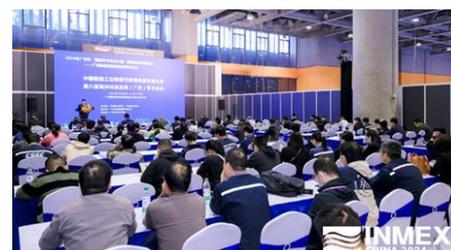

The prestigious and insightful Maritime Technology Forum

Throughout the exhibition, a series of high-standard forums, technical exchange meetings, and business events took place. These gatherings brought together over 50 leaders, executives and experts from domestic and international government maritime agencies, renowned shipping companies, shipbuilding firms, marine engineering organisations, ocean ranching enterprises, offshore wind power sectors, and other related fields. They engaged in forward-looking and authoritative analysis and discussions on various hot topics within the maritime industry.

The 5th Transformation and Upgrade to the High-Quality Development of the Chinese Shipbuilding Industry Forum for the South China Region in 2024 stood out as the largest in scale featuring the most distinguished lineup of guests and the most precise content among industry forums. It included various theme forums and activities, including the "Main Forum," "2024 Inaugural Guangdong Shipping Technology Forum," "the 7th China Green Ship Technology Summit," "the 6th Marine Technology Development (Guangzhou) Forum," "Green Ship Repair Forum," and "the 3th (Guangzhou) Cutting-Edge Technology Forum on Underwater Unmanned Systems," among others. Each forum witnessed a significant turnout of participants, with well-defined and relevant topics that provided delegates with valuable opportunities for learning and networking. In total, the forums collectively attracted nearly 1,500 participants.

On-site Networking Activities:

On the morning of November 27, 2024, a grand opening ceremony was held at the Poly World Trade Centre Exhibition Hall. Over 300 guests from both domestic and international were present to witness this momentous occasion.

Exhibition Fee

Exhibition booth types	Standard booth (min. 9 square meters)	Raw space (min. 24 square meters)
Exhibition booth fees (for overseas companies)	US\$ 550 per square meter	US\$ 500 per square meter
Standard exhibition booth	Chinese and English fascia boards and board hoardings, carpet in booth area, power supply (one 6 amp power plug), 2 spotlights, 2 folding chairs, 1 consultation table, 1 waste bin	
Deluxe standard booth	A uniform design of a 4-metre high deluxe standard booth (height of the hoarding is 2.48 metres): a fascia sign (including company name and booth number in English and Chinese), 1 consultation table, 1 round glass table for negotiation, 4 leather chairs, 4 spotlights, carpet in booth area, one 6 amp power plug and 1 waste bin.	
Remarks: 1. Standard and deluxe booths with double-sided and 3-slides open booths are subject to an additional 10% charge. 2. All empty booths do not include any exhibition facilities, water and electricity. Exhibitors must design and arrange their own booths, and any special decorations management fees will be charged by the exhibition hall.
